Would Minister Fitzgerald be approachable on this issue? I know she will have other items on her agenda, but would you be able to write to her and ask her to ensure no additional delays or interruptions on the Magdalen Implementation plan.

I read with concern Minister Varadkar's comments about the Department of Justice this morning ... one part of me could weigh in with additional examples on dysfunction beyond the Garda Siochana, but at this stage I just want to get this redress process done for the women. I would hate to see any shake up in the department negatively impact women who have been waiting too long already.

Will the new minister weigh in behind the pending legislation?

Will she help expedite the payment of pensions?

Will she support the broader interpretation of Justice Quirke's recommendation on health care, affording all women, regardless of place of residence, full health care equal to the holders of the HAA card?

Many thanks for anything you can do ...

Jim
